The Client acknowledges that verbal instructions shall be treated on a first come, first served basis and the Company bears no responsibility for possible delays in placing the verbal instruction to the Dealing Desk.
- 7.10 The Company will be entitled to rely and act on any Order given by using the Access Data/Access Codes on the Trading Platform or via phone (subject to the terms of this Document) without any further enquiry to the Client and any such Orders will be binding upon the Client. The Company reserves the right not to accept any verbal instructions in case the caller's/Client's identity has not been verified. Clients acknowledge that will be unable to place any Orders until receipt from the Company of the new replacement Access Data/Access Codes.
- 7.13 You accept that you will be liable for all orders given through and under your Access Data/Access Codes and any such orders received by us will be considered as received by you. In cases where a third person is assigned as an authorized representative to act on your behalf, you will be responsible for all orders given through and under your representative's Access Data/Access Codes.
- 7.14 The Client agrees that trading operations using additional functions of the Trading Platform such as Trailing Stop and/or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on his trading terminal and the Company bears no responsibility whatsoever and make no warranty or representation of any kind, whether express or implied.
- 7.15 The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.
- 7.16 The Company will not be liable to the Client should his computer system or mobile phone or tablet fail, damage, destroy and/or format his records and data. 9. Trading Procedures, Instructions and Execution of Orders

- 9.1 The Client understands and acknowledges that the Company deals through exchanges and over the counter "OTC" providers. The Company may place an order outside of an exchange if this satisfies Company's Order Execution Policy. By accepting this Agreement, the Client agrees that the Company might enter into Transactions on Client's behalf outside a regulated market or MTF.
- 9.2 The Client shall mainly give instructions to the Company by electronic means and more specifically through Company's Trading Platform. In exceptional cases and when the Trading Platform is not functional for any reason whatsoever, the Company might receive instructions in writing and duly signed, and/or verbally, by telephone or in person provided that the Company is satisfied, at its absolute discretion, of the caller's/Client's identity and clarity of instructions. All Instructions, requests or Orders received by telephone will be binding as if received in writing. The property of all recordings shall be and remain the sole properties of the Company and will be accepted by the Client as conclusive evidence in case of any legal dispute and/or complaint.
- 9.3 The Company may refuse the Client the execution of transactions in case of lack of clarity or if the instructions do not include essential operations such as opening position, closing position, changing or removing Orders.
- 9.4 During the course of this Agreement in relation to all individual Financial Instruments trading the Company shall execute Client Orders according to the Best Interests and Order Execution Policy, which is binding on the Client, in an own account basis, i.e. as principal to principal and/or in an STP/ECN model.
- 9.5 The Company will use sufficient efforts to execute an Order, but it is agreed and understood that despite the Company's sufficient efforts transmission or execution may not always be achieved at all for reasons beyond the control of the Company.
- 9.6 The following Orders may be placed with the Company: market orders and pending

orders.

- 9.7 Orders can be placed, executed and (if allowed) changed within the Trading Hours for each type of Financial Instrument appearing on the Platform and/or the Website, as amended from the Company from time to time.
- 9.8 Pending Orders, not executed, shall remain effective through the next trading session (as applicable).
- 9.9 Market Orders not executed because there is not enough volume to fill them, may not remain effective and they may be cancelled.
- 9.10 All open spot positions will be rolled over to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position.
- 9.11 Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the Order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all pending orders if the Client Trading Account Equity reaches zero and/or if the Agreement is terminated as provided hereunder.
- 9.12 Orders cannot be removed once placed.
- 9.13 The Client may add Stop Loss and Take Profit Orders at any stage when the position is open.
- 9.14 Stop loss and Take Profit orders may be changed as long as they are higher in distance than a specific level (depending on the trading symbol).
- 9.15 The Client may change the expiration date of Pending Orders or delete or modify a Pending Order before it is executed.
- 9.16 The Client's orders are executed at the "BID"/ "ASK" prices offered by the Company and which the Client can see in the Trading Platform. The Client places his/her order at the prices he/she sees on his/her Client terminal and the execution process is initiated. Normally the transaction is executed at the prices the Client can see on his/her Client terminal. Due to the high volatility of the markets as well as the internet connectivity between the Client terminal and the server, the prices requested by the Client and the current market price may change, during the confirmation process. In this event, the Company has the right to decline the Client's requested price and offer a new price. The Client can either accept the new price and execute the transaction or refuse the new price, thus cancelling the execution of the transaction.
- 9.17 The Company reserves the right at its own discretion, without the Client's consent, due to risk management policies to transfer Client's execution to STP/ECN execution including without limitation when the Client's trading strategy, exposes the Company to greater risk than the Company can tolerate.
- 9.18 The Company may in its sole discretion reject any order from the Client but will notify

the Client of any such rejection, without giving any reasons, promptly following receipt of the Client's instructions. The Company may cancel any instructions previously given by the Client provided that the Company has not acted on the Client's instructions. Without prejudice to the generality of the foregoing the Client acknowledges that the Company may reject orders and/or instructions by the Client when they are not clear when the Client seeks to open a position, close a position or modify or withdraw an order. Furthermore, the Company may be required to cancel an Order for a variety of reasons, including, but not limited to, the size of an order, market conditions, Client's breach of this Agreement, violation of any Applicable Regulations related to such orders, insufficient or inadequate funds in the Trading Account (including all commission, charges, taxes and any amount in addition to the current price of the Financial Instrument that the Company reasonably considers), if requested or recommended by an exchange, and the Client agrees to use all reasonable endeavors to assist the Company in this regard.

- 9.19 Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment via its internal mail as soon as is reasonably practicable.
- 9.20 The Company may aggregate orders received from its Clients. Aggregation means that the Company may combine a Client's order with those of other Clients for execution as a single order. The Company may proceed with such aggregation in accordance with its Best Execution Policy if it reasonably believes that this is in the overall best interests of its Clients as a whole.
- 9.21 The Company will be entitled to rely and act on any Order without any further enquiry, and the Company will consider any Orders to be binding upon the Client where such Order has been placed and transmitted by the Client using his own Access Data/Access Codes via the Company's Trading Platform.
- 9.22 Orders can be transmitted for execution, modified or removed only within the operating (trading) time as set out on the Company's website from to time and if they are not executed, they shall remain effective through the next trading session. Once accepted, an Order cannot be amended or modified or cancelled.
- 9.23 The Company may allow a third party as Authorized Person to act on behalf of the Client in all business relationships/activities with the Company as defined in this Agreement with the provision and execution of a Power of Attorney. The Company may allow and accept the Power of Attorney only when the Client's representative full identification documents are provided to the Company for review. In the case the Power of Attorney is of indefinite period, it will be considered valid by the Company and until the Client provides in writing his request to terminate the Power of Attorney.

In addition to the above, The Client has the right, at his own risk, to use a Power of Attorney to authorize a third person (Authorized Person) to act on behalf of the Client in all business relationships with the Company as defined in this Agreement provided that:

- a. the Client has informed the Company in writing in such a manner as the Company may at any time determine.
- b. the Authorized Person has been approved by the Company.
- c. that both the Client and the Authorized Person have fulfilled such conditions, including the execution of such document, that the Company may at any time and at its discretion determine.

Unless the Company receives a written notification from the Client for the termination of such representative authorisation, in such a manner as the Company may at any time determine, the Company may continue accepting instructions and/or Orders given by such representative on behalf of the Client, and the Client shall recognize such Orders as valid and binding. The written notification by the Client for the termination of the authorisation of the representative must be received by the Company with at least two (2) Business Days' prior notice.

The Company reserves the right at its discretion and without notice to the Client, to refuse to accept instructions from any Authorized Person and to consider the appointment of any such Authorized Person as terminated. Furthermore, the Company may, at any time and at its discretion, reject any existing and previously accepted power of attorney between the Client and any authorised representative, and may reverse any relevant Transactions and restore the affected Trading Accounts' Balance.

- 9.24 Notwithstanding the above clause, by placing an order for the purchase or selling a Security, the Client agrees that will have sufficient funds in its Trading Account on the date when is required to make the payment to settle the Transaction, otherwise the order will not be executed. Furthermore, the Client understands and agrees that there is no guarantee that an Order dealing in Securities will be filled in full or in part. Where a delay occurs for any reason, we will attempt to execute the order as soon as reasonably practicable. The Client acknowledges and accepts that the market price of the Securities may have moved during the time between receipt and acceptance of the Order by the Company and attempt to execute the Order. In these circumstances, the third-party who has provided the quotation to the Company is not obliged to honor the indicative price the Client has received and, if that is the case, the Company may reject the Order.
- 9.25 The Company shall not be liable for any delays, inaccuracies, or other errors in the transmission of any order, instruction or information from the Client to the Company and also from the Company to its Counterparty due to any cause beyond the reasonable control of the Company. Delays can be caused by various reasons depending on the current market conditions (e.g. high market volatility) as well as a slow/weak internet connection (e.g. between the Client's terminal and the Company's server).
- 9.26 While trading, you might encounter system errors that resulted from hardware and/or software failures. The result of any system failure may be that your order is either not executed according to your instructions, and/or executed without instructions from your side and/or executed with account balance errors and discrepancies or not executed at all. We will not be liable for the resulting errors in your Account balances. We reserve the right to make the necessary corrections or adjustments on the Account

involved.

- 9.27 "Manifest Error" means a manifest or obvious misquote by the Company, or any market, liquidity provider or official price source on which the Company has relied in connection with any Transaction, having regard to the current market conditions at the time an order is placed as the Company may reasonably determine. When determining whether a situation amounts to a Manifest Error, the Company may take into account any information in its possession, including information concerning all relevant market conditions and any error in, or lack of clarity of, any information source or announcement. The Company will, when making a determination as to whether a situation amounts to a Manifest Error, act fairly towards the Client but the fact that the Client may have entered into, or refrained from entering into, a corresponding financial commitment, contract or Transaction in reliance on an order placed with the Company (or that the Client has suffered or may suffer any loss) will not be taken into account by the Company in determining whether there has been a Manifest Error.
- 9.28 In respect of any Manifest Error, the Company may (but will not be obliged to):
- Amend the details of each affected Transaction to reflect what the Company may reasonably determine to be the correct or fair terms of such Transaction absent such Manifest Error;
 - Declare any or all affected Transactions void, in which case all such Transactions will be deemed not to have been entered into.
- 9.29 The Company will not be liable to the Client for any loss (including any loss of profits, income or opportunity) that the Client or any other person may suffer or incur as a result of or in connection with any Manifest Error (including any Manifest Error by the Company) or the Company's decision to maintain, amend or declare void any affected Transaction, except to the extent that such Manifest Error resulted from the Company's own willful default or fraud, as determined by a competent court in a final, non-appealable judgment.
- 9.30 The Company reserves the right to proceed with partial execution of Client's Order if deems appropriate and after consideration of the volume of the Client's Order and the prevailing market conditions.
- 9.31 All CFDs orders are placed in lot sizes and are subject to minimum and maximum lots' requirements. A lot is a unit measuring the transaction amount and it is different for each type of Instrument as set out on the Company's Trading Platform and website and updated from time to time. Details of the lot sizes for a given CFD are available in the Company's Trading Platform and website and Clients acknowledge that it is their responsibility to review the said details and become familiar with. Clients further acknowledge and accept that even though in some cases there is no maximum size of an order which the Client can place with the Company, the Company reserves the right to decline an order, in case the size of the order is large and cannot be filled.
- 9.32 Trading leveraged products such as CFDs and other products offered by the Company involves substantial risk of loss and the Client may lose all of his/her invested capital. While offering CFDs the Company operates on a 'Negative Balance Protection' for Retail Clients Only; this means that the Client cannot lose more than his/her overall investment.

- 9.33 Clients acknowledge that while they can set their leverage level for trading in CFDs, the Company reserves the right to change the Contract Specification, including leverage and spreads, minimum and maximum exposure levels and any other trading conditions or Contract Specification, at any time without Clients' consent, depending on the prevailing market conditions either permanently or for a limited period of time. Clients acknowledge that it is their responsibility to review and become familiar with the Contract Specification available on the Company's Trading Platform prior to placing any Order.
- 9.34 Clients acknowledge and accept that if they transmit and/or place any Order to the Company which is in breach of any part of this Agreement, the Company at its absolute discretion has the right to activate any of the provisions under Paragraph 36 of this Agreement. For instance such a breach includes but is not limited to any Order that is placed with the use of additional functionalities/ plug-ins that affect the reliability and/or smooth operation of the Company's Trading Platform or when Client are trading in a way with the aim to take advantage of price disparities resulting from rate/occasional price latencies with the purpose of benefiting from a possible pricing arbitrage/ riskless profit to the Company's detriment as result of the use of additional functionalities/ plug-ins or any other means.
- 9.35 Client's Orders such as Stop Loss, Take Profit, Buy Limit, Buy Stop, Sell Limit, Sell Stop are executed at the available prevailing market price which may be different than the price indicated in the Order ("Slippage"). Slippage may occur in the event where the price indicated in the order is not available in the server, for example, due to high volatility and gaps in the market prices. In such event, the order will be executed at the first available price, irrespective of the direction of the slippage, either to the client's favor or not, in a symmetrical and transparent manner (Symmetrical Slippage). However, in the case of any communication or technical failure as well as any incorrect reflection on the quotes feed (i.e. prices to freeze/to stop updating or price spikes), the Company reserves the right not to execute the order or in case the order was executed to change the opening and/or closing price of a specific transaction or to cancel the said executed order.
- 9.36 Where a limit order or stop order is placed in respect of a Security which has been suspended from trading or who had a corporate action before execution or if Client's account is suspended, the Company may, but are not under any obligation to, cancel such limit or stop Order.
- 9.37 Internet, connectivity delays, and price feed errors sometimes create a situation where there is price latency on the Electronic Systems such that there is a disparity between the Company quoted prices and current market prices for short periods. Client expressly acknowledges and agrees that it shall not execute Transactions with the Company that rely on price latency arbitrage opportunities either by using additional functionalities/plugin-ins (i.e. Expert Adviser, etc.) or by any other means. If the Client acts in contravention of this paragraph the Company reserves the right to:
- a. make corrections or adjustments to the relevant Transaction execution prices to reflect what would have occurred had there been no price latency arbitrage; and/or

- b. cancel all the relevant Transactions; and/or
- c. terminate without notice the Client's Account with the Company; and/or
- d. charge an administration fee to the Client's Account that the Company will set in its sole and absolute discretion.

9.38 The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. When the Company decides to do so, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue.

9.39 It is the Client's responsibility to be aware of his positions at all times.

9.40 By entering into this Agreement, the Client acknowledges that he/she understands and agrees that the Company is the sole counterparty, however the Company to the extent permitted by Applicable Regulations, may employ Third Parties it selects and delegate to such Third Parties the performance of certain duties and therefore when the Company executes a transaction for (or with) the Client it may be engaging in a similar trading for (or with) other clients, Company's affiliated companies, or for own account, subject to the provisions of Applicable Regulation.

9.41 There are a number of situations where the Company will not owe the Client any duties of best execution (as more fully set out in the information regarding our Order Execution Policy). These include without limitation the following scenario. When the Client gives specific instructions to the Company and the Company executes Client's order in accordance with those instructions, the Company will have discharged its duties to the extent of those instructions.

9.42 When executing orders on Client's behalf the Company will do this in accordance with its Order Execution Policy as amended from time to time to which the Client consent. Company's Order Execution Policy is presented together with this Agreement. The latest version of Company's Order Execution Policy will also be available on the Company Website or from Client's usual contact with the Company.

9.43 The Company has the right at its absolute discretion to increase or decrease the spreads of any Financial Instrument depending on the current market conditions and the characteristics of Client's order.

9.44 Trading operations using additional functions/plugin-ins made available through the Trading Platform such as "Trailing Stop" or "Expert Advisor" are executed completely and exclusively under the Client's responsibility and at his/her own risk, as they depend directly upon the Client, and the Company bears no responsibility whatsoever. The Company reserves the right to accept or reject at its own discretion the use of additional functions/plugin-ins of the Trading Platform and in case these additional functions/plugin-ins affect the reliability and/or smooth operation and/or orderly of the Company's Trading Platform to immediately terminate by way of written notice the relationship with the Client.

- 10.5 Depending on the position held and the interest rates of the currency pair involved in a transaction the Client may either be credited or debited with financing; the operation is conducted at 23:59 (server time) and the resulting amount is automatically converted into Client's Balance Currency.
- 10.6 From Mondays to Thursdays swap is charged once for every business day and on Fridays swap is charge in triple size in order to account for the weekend. It should be noted that the Company charges its own interest; the rollover interest rates of the Company are based on the overnight rate provided by our liquidity providers; the Company updates such rate as often as it deems necessary.

If after debiting such fees and expenses, the balance of the Account turns to be a negative and the Client fails to cover such negative amount for 14 (fourteen) days from the date the account balance became negative, then the Company shall have the right to liquidate part or all of the Securities held on behalf of the Client, in order to cover such negative balance.

- 11.2 The Client agrees not to use the Trading Platform and/or give an Order or enter into Transaction within the definition of insider dealing and/or market abuse (as such terms are defined in the Market Abuse Law 102(I)/2016), as amended from time to time or in any other abusive way, including lag trading and/or usage of server latency, price manipulation, time manipulation, scalping or any other practices which are illegal and/or are utilized to give the Client an unfair advantage or which the Company considers at its sole discretion as inappropriate and outside the scope of this

Agreement and/or as unfair business conduct. Such practices may further include holding long and short Positions in the same or similar instruments at similar times, including through different accounts, accounts held with different entities connected to the Company or together with others, for the purpose of manipulating or taking advantage of the Company or any of the services and benefits it may offer.

- 11.5 Any indication or suspicion, in Company's sole discretion, of any form of abusive behavior (including but not limited to risk free profiting), abuse (including but not limited to participant's trading activity patterns that indicate that the participant solely aims to benefit financially without being genuinely interested in trading in the markets and/or taking market risk), internal hedging in coordination with other parties, abuse of our 'no negative balance' policy, fraud, manipulation, or any other forms of deceitful or fraudulent activity, will constitute all Transactions carried and/or profits or losses garnered as invalid. In these circumstances, we reserve the right to close/suspend (either temporarily or permanently) all of the Client's trading Accounts

- 13.1 An Account Statement will be provided by the Company via the Trading Platform to the Client. Any confirmation or proof for any act or Account Statement or certification issued by the Company in relation to any Transaction or other matter shall be final and binding on the Client, unless the Client has any objection in relation to such Account Statement or certification and the said objection is filed in writing and received by the Company within one (1) Working Day from the receipt or the deemed date of receipt of any Account Statement or certification.
- 13.2 In the case where the Client is able to have an online Account Statement on a continuous basis, then the Company is considered as having fulfilled its obligations under this Section, and any objections of the Client shall be valid only if received by the Company in writing within one (1) Working Day from the Transaction under objection.
- 13.3 With regards to dealing in CFDs and other derivatives, Clients acknowledge and accept that the Company may proceed to a settlement of transactions only when such transactions have been executed (i.e. completed transaction). Clients further acknowledge that unless otherwise agreed between the Parties, the settlement of transactions shall be in accordance with the normal practice for a given Financial Instrument or market concerned.
- 13.4 With regards to Dealing in Securities:
- 13.4.1 Settlement of a Sale Transaction by the Company shall be by way of electronic delivery to the Client the relevant Securities through book entries in the records of the Company. The Company shall upon settlement of a Sale Transaction deliver the relevant Securities to the relevant Third Party. Any monies received by the Company pursuant to a Sale Transaction shall be credited to the Account Balance. The Company shall upon settlement of a Sale Transaction by the Client deliver the relevant Securities to the relevant Third Party.
- 13.4.2 Settlement of a Buy Transaction shall be by way of credit to the Custody Account of the relevant Securities on the Settlement Date which shall be effectuated through book entries in Company's records. Settlement of a Buy Transaction shall require prior payment by the Client of the value of the transaction plus fees/charges and commissions as applicable in the currency denominated in the instructions of the

Company.

- 13.4.4 Transactions shall be settled on a maximum of T+5 basis meaning that the transaction settles five business days after it is made). The settlement date cannot be changed once you offer to enter into a Transaction. If settlement does not occur on the expected Settlement Date the monies will be treated as client money and the Company shall make its best efforts to notify the Client regarding the reasons of such delay, and if known, the expected Settlement Date.
- 13.4.5 Settlement shall only be effectuated on a delivery versus payment basis. Securities held on Client's behalf by the Company shall be used to settle any sale Transactions.

14. Margin Requirements

- 14.1 The present paragraph applies only to the provision of trading in CFDs and other derivative products.
- 14.2 As a condition of entering into a CFD Transaction, the Company requires the deposit of Margin to secure the Client's liability to the Company for any losses, which may be incurred in respect of the Transaction. The "Leverage Level" is the ratio of Margin to the market value of the open Transaction position, which it secures. By accepting this Agreement, the Client has read, understood and accepted the "Leverage Levels" as these are stated in the Company's Website and other documentation and relevant information found in the Trading Platform. The Leverage Level of a Client's Account(s) may be changed by the Company in its absolute discretion with reference to such matters as the deposit or Margin amount held in the Client Account and the size of credit exposure held on Financial Instrument(s) held in the Client Account(s).
- 14.3 Margin requirements or Leverage Level may be set and varied without prior notice from time to time in the Company's sole and absolute discretion in order to cover any realised or unrealised losses arising from or in connection with Transactions, including subsequent variation of any Margin rates set at the time Transactions are opened. The Client can request to change his account leverage at any time in accordance with Applicable Regulations by contacting the Company. The Client acknowledges that the Company has the discretion to change the Client's trading account leverage at any given time, without the Client's consent, either on a permanent basis or for a limited period of time. Such an event will be disclosed to the Client by the Company via its internal mail or by email.
- 14.4 The Client is obliged to maintain in his Account, at all times, sufficient funds to meet all Margin requirements. In addition, the Company will be entitled to treat any assets deposited with it by the Client from time to time (other than assets deposited for safe custody only) as collateral against the Client's Margin requirements. Only funds received net of any bank charges, which relate to the transfer, will be credited as paid.

- 14.5 Should a Retail Client Account, reaches a margin level of equal or less than 50% as calculated by the Company, the Company will start automatically closing deals in order to achieve Margin Level more than 50%, usually starting from the deal that is the most unprofitable, at the price then offered by the Company, subject to Slippage.
- 14.6 With regards to dealing in CFDs, the Client's Equity in the Account will never fall below zero. In the event that a CFD Position is closed at such price causing the Equity to fall below zero, the Company shall waive its right to receive the balance from the Client ("Negative Balance Protection"). With regards to dealing in Securities, in the event that after debiting any charges in respect of the Services provided in Securities the balance of the Account turns to be a negative and the Client fails to cover such negative amount for 14 (fourteen) days from the date the account balance became negative, then the Company shall have the right to liquidate part or all of the Securities held on behalf of the Client, in order to cover such negative balance.
- 14.7 Customers must be aware that margin trading carries a high degree of risk. The amount of initial margin may be small relative to the value of the foreign currency so that transactions are 'leveraged' or 'geared'. A relatively small market movement may have a proportionately larger impact on the funds that the Customer has deposited or will have to deposit. This may work against as well as for the customer.
- 14.8 The Company exclusively reserves the right to widen its variable spreads, adjust leverage, change its swap rates and/or increase the margin requirements and/or the minimum and maximum exposure, without notice under certain market conditions and/or based on the specific characteristics of the Client's Account, including, but not limited to, when the trading desk is closed, around fundamental announcements, as a result of changes in credit markets, at times of extreme market volatility and/or when the Company deems that such exposure is risky and that it is not possible for the Company to mitigate its risks. In such circumstances, the Customer agrees to indemnify the Company for any and all losses that may occur due to the widening of spreads and the adjustment of leverage.
- 14.9 The Client has the right to withdraw the funds which are not used for margin covering, free from any obligations (i.e. Free Margin) from the Client's account without closing the said account.
- 14.10 The Client acknowledges that he is responsible for monitoring the Margin on his Account.

15. Market Data

- 15.1 With respect to any market data or other information that we or any third-party service provider display on the website, (a) such data is indicative only and we and any such provider are not responsible or liable if any such data or information is inaccurate or incomplete in any respect; (b) we and any such provider are not responsible or liable for any actions that you take or do not take based on such data or information; and (c) such data or information is proprietary to us and/or any such provider and you are not permitted to retransmit, redistribute, publish, disclose or display in whole or in part such data or information to third parties except as may be required by any law or

regulation.

- 15.2 The client acknowledges and agrees that (a) shall provide the Company, immediately upon request, with such information in relation to the Client and the Client's use or intended use of market data; b) that the Company may monitor the Client's use of market data; and c) that the Company may at its discretion remove the Client's access to market data at any time.
- 15.3 It is noted that the Company's prices in relation to CFD trading are set by the Company and may be different from prices reported elsewhere. Any references by the Client to prices of other trading systems, information systems and/or other clients shall be disregarded. The Company's trading prices are the ones at which the Company is willing to sell CFDs to its Clients at the point of sale. As such, they may not directly correspond to real time market levels at the point in time at which the sale of CFD occurs. The Underlying Asset is a derivative Financial Instrument which may settle on expiry by a delivery other than in cash, a reasonable period prior to the expiry date as determined in the sole and absolute discretion of the Company. The Company will not be subject to any obligation to rollover a position in such a derivative Financial Instrument.
- 15.4 The price of an Expiry Transaction will be (a) the last traded price at or prior to the close or the applicable official closing quotation or value in the relevant Underlying Asset or Financial Instrument as reported by the relevant exchange or market, errors and omissions excluded; plus, or, as the case may be, minus (b) any Spread that the Company applies when such an Expiry Transaction is closed. Details of the Spread that the Company applies when a particular Expiry Transaction is closed are available on request.
- 15.5 In case of Securities Market Data are data produced by an exchange. The data may include (without limitation) current market prices ("real time" or delayed), opening and closing market prices and ranges, high-low market prices, estimated and actual market volumes and the size, number and existence of current market bids and offers.
- 15.6 The Client shall not use the prices the Company makes available for any purpose other than for utilizing Company's services, and the Client agrees not to redistribute the prices made available by the Company to any other person whether such redistribution be for commercial or other purposes. Furthermore, the Client authorizes the Company to enter into any agreement with any exchange(s) relating to the proper use of market data the Company sees fit.

16. Corporate Actions

- 16.1 The present paragraph applies to the provision of trading in Securities or CFDs that have as underlying asset Securities:
- 16.2 The Company will make an effort to adjust Client's account in respect of a Corporate Action depending on the circumstances of each event and according to Company's sole discretion attributable to any specific Security held. Such adjustment shall be calculated net of any taxes which may apply with respect thereto. In doing so the Company will make best efforts to effect such adjustment on the basis of good faith

and fairness and, where appropriate, by taking such action as is consistent with market practice and/or taking into account the treatment received from Third Parties. Nothing contained herein shall be construed as an obligation of the Company to provide any right resulting out of a Corporate Action.

- 16.3 It is the Client's obligation and responsibility to ensure that it is fully aware of the Corporate Actions or other events related to any Security on which its Transactions are based. The Client acknowledges and agrees that not all Corporate Action can be known in advance. It is also Client's responsibility to ensure it has sufficient monies on the account to satisfy any purchase of Securities pursuant to a Corporate Action.
- 16.4 If the Security becomes subject to an adjustment as the result of a takeover or transformation action, the Company may determine the appropriate adjustment to be made to the Security and/or CFD price or contract quantity as considers appropriate to account for said event, all according to the sole discretion of the Company. Such adjustment shall represent the economic equivalent of the rights and obligations of the Company and the Client next to the time of the action.
- 16.5 The Company reserves the right to liquidate any Security and/or CFD at the market price as soon as practical following such Corporate Action taking place in order to make any required adjustment (price, quantity or any other adjustment) resulting out of the Corporate Action.
- 16.6 If a Security and/or the underlying asset/security of a CFD offered by the Company becomes subject to a specific risk resulting in a predicted fall in value, the Company reserves the right to restrict short selling or even to withdraw the specific Financial Instrument from the Company's trading Platform.
- 16.7 The Company reserves, in case of corporate event(s) as defined below, the right to one of the following procedures:
- a) Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment by written notice sent either by regular mail or email, or through the Trading Platform as soon as is reasonably practicable.
 - b) In the case where the Client has any Open Positions on the ex-dividend day for any of the Securities and/or CFDs with underlying assets such Securities, the Company has the right to close such positions at the last price of the previous trading day and open the equivalent volume of the Financial Instrument at the first available price on the ex-dividend day. In this case, the Company will inform the Client of the said adjustment, by written notice sent either by regular mail or email, or through the Trading Platform as soon as is reasonably practicable, and no Client consent will be required.
 - c) Close such positions at the last price of the previous trading day and open the equivalent volume of the Financial Instrument at the first available price on the ex-dividend day.
 - d) Leave such positions open and incur all costs on the Client (important notice:

while opening a "short" position on an underlying index and their respective connected securities that might be involved in a corporate event, the Company shall adjust the Client account with such cost and shall notify the Client as soon as reasonably practicable).

- 16.8 Where a Corporate Action results in a fractional entitlement to part of a Security, then the Company may aggregate those fractional entitlements and sell such fractional Securities and credit Client's account with a cash value which may be subject to a minimum charge. Where Corporate Actions affect some but not all Securities held in a pooled account, the Company shall allocate the Securities which are affected to relevant clients in such a fair and equitable manner as we reasonably consider is appropriate.
- 16.9 The Company will reflect a Corporate Action to the Client's Account as soon as practicable after receiving confirmation that the Corporate Action has been completed. If we are notified of a classaction or group litigation that is being proposed or taken concerning Securities that we are holding on your behalf, we are not required to tell you about this or otherwise act on that notification.

17. Suspension, Insolvency and Delisting

- 17.1 The present paragraph shall apply to the provision of Dealing in Securities and/or to dealing in CFDs with Securities as Underlying Asset.
- 17.2 If at any time trading on the underlying market is suspended in any Security that forms the subject of Client's Transaction, then the applicable Transaction will also be suspended and neither the Client nor the Company will be able to sell such Financial Instrument until such suspension is terminated and trading recommences. Following lifting of suspension, any order that the Client may have given with respect to the Financial Instrument that have been triggered will be executed as soon as is reasonable in the circumstances having regard to liquidity in the underlying market. The Company cannot guarantee that such order will be executed at the first available underlying market price. It is provided that the Company shall notify the Client regarding any suspension, as soon as reasonably practicable from the time such suspension became known to the Company.
- 17.3 Where the Financial Instrument is in respect of a company, that company is delisted from the Underlying Market, goes into insolvency or is dissolved, at which point the Client's order will be cancelled and any Financial Instrument held will be dealt with in accordance with the terms of the delisting, insolvency or dissolution, as applicable. In case the Company will be notified that the Security that is subject to the Financial Instrument the Client holds is likely to be delisted, the Company will promptly inform the Client, and then promptly sell the security on Client's behalf at such time and price, and in such manner, as it determines after taking into consideration the best interest of the Client.

18. Voting Rights and Dividends

- 18.1 In the event of a distribution of cash dividends in relation to a CFD with Securities as underlying Asset, a dividend adjustment will be made to the Client's Balance with

respect the subject Positions held by the Client at the end of business day which precedes the ex-dividend date. The dividend adjustment shall be calculated by the Company, based on the size of the dividend, the size of the Client's position, taxation (if applicable) and whether it is a buy or a sell Transaction, whereby in long Positions the adjustment shall be credited to the Client's Balance and in short positions the adjustment shall be debited from the Client's Balance. Dividends shall be credited or debited from the Client's Balance outside the underlying share's trading hours and before and the opening of the share's next trading day and are contingent upon the Client holding its respective Position at the time of the dividend adjustment. During this period, in order to keep the fair value of the Client's Equity until the opening of the next trading day, the Company shall adjust the Client's Position in accordance with the dividend amount debited or credited from the Client's Balance.

18.2 In relation to Dealing in Securities:

- 18.2.1 Subject to the laws and/or regulations governing Securities held by and/or on behalf of the Client, the Company at its sole and absolute discretion may inform the Client of -and/or exercise- any voting rights attaching to Securities held by the Client at any given time, whether exercisable at a general meeting of a company and/or in writing and/or otherwise, in accordance with the laws and/or regulations applicable to the exercise of such rights.
- 18.2.2 Unless otherwise provided for under the laws and/or regulations governing Securities held by and/or on behalf of the Client, the Company is not obliged to notify the Client or arrange attendance at any annual general meetings or extraordinary general meetings applicable to the Securities held, and/or arrange the exercise of any voting rights attaching to such Securities, whether exercisable at an annual general meeting or otherwise.
- 18.2.3 Once the Company receives from any Third Party any periodic payments accruing to Client's Custody Assets, such as dividends:
- a) in the case of any cash payment received, the Company shall credit a sum equivalent thereto (net of any applicable withholding or deduction for or on account of Tax as per Applicable Law) to the Account Balance (in the case of cash payment in respect of Custody Assets); and
 - b) in the case of any distribution received by way of additional securities in respect of such Custody Assets, credit the Custody Account with such additional securities.
- 18.2.4 Notwithstanding the above, the Company will not be responsible for claiming and receiving dividends, interest payments and other income payments accruing to your investments in Securities we hold on Client's behalf.

19. Client's Money– Segregation of Funds

- 19.1 The Company is under obligation when holding Client Money to take every possible safeguarding measure. Client Money shall be segregated from Company's own and held in accordance with applicable regulations regarding Clients money. This means Clients Money cannot be used by the Company for its own account.
- 19.2 The Company may hold Client Money of a specific Client and Client Money of other

Clients in the same Client Bank Account (omnibus account) in accordance with the Applicable Regulations.

- 19.3 The Company is not obliged to pay any profit (including interest) to Clients on Client Money held by the Company in any Client Bank Account (other than profit generated through trading Transactions from the Client Trading Account(s) under this Agreement) and consequently Clients waive any and all rights to receive such profit. Clients further acknowledge that the Company may deposit Client Money in overnight deposits and the Company will be entitled to benefit from any profit earned to cover among others registration/general expenses/charges/fees and interest related to the administration and maintenance of the bank accounts.
- 19.4 Upon accepting the present Terms and Conditions, Clients authorize the Company to make any deposits and withdrawals from the Client Bank Account on their behalf including, without prejudice to the generality of the above, withdrawals for the settlement of all transactions undertaken under this Agreement and all amounts which are payable by or on behalf of the Clients to the Company or any other person.
- 19.5 Clients acknowledge, that the Company may transfer Client Money to a third party (e.g. a bank, payment service provider, intermediate broker, clearing house, OTC counterparty etc.) to hold or control in order to affect a transaction through or with that person or to satisfy the Client's obligation to provide collateral (e.g. initial margin requirement) in respect of a transaction. The Company will not be liable for the insolvency, acts or omissions of any third party referred to in this paragraph.
- 19.6 Client money may be held on the Client's behalf in a bank located within or outside Cyprus subject always to the Company's licensing, authorization requirements and Applicable Regulations. The legal and regulatory regime applying to any such person outside Cyprus will be different from that of Cyprus and in the event of the insolvency or any other equivalent failure of that person, the Client's money may be treated differently from the treatment which would apply if the money was held in a Segregated Account in Cyprus. The Company will not be liable for the solvency, acts or omissions of any third party referred to in this paragraph.
- 19.7 The Third Party to whom the Company will pass money may hold it in an omnibus account and it may not be possible to separate it from the Client's money, or the third party's money. In the event of the insolvency or any other analogous proceedings in relation to that third party, the Company may only have an unsecured claim against the third party on behalf of the Client, and the Client will be exposed to the risk that the money received by the Company from the Third Party is insufficient to satisfy the claims of the Client with claims in respect of the relevant account. The Company does not accept any liability or responsibility for any resulting losses.
- 19.8 It is understood that the Company may keep merchant accounts in its name only with EEA regulated payment institutions used to settle payment transactions of its Clients. However, for the avoidance of doubt, it is noted that such merchant accounts are not used for safekeeping of Client money but only to effect settlements of payment transactions. There are instances where such merchant accounts might be held with a payment institution authorized in a third country. In such a case the Company will take all reasonable measures to ensure that payment institutions authorized in a third

country are supervised by regulatory authorities of equivalent status to CySEC and/or are satisfying any other requirements set by the applicable regulations.

- 19.9 The Company will maintain separate records in the accounting system of its own funds/assets and Client Money so as at any time and without delay to distinguish funds held for Clients from Company's own funds.

20. Clients Assets and Custodial Services

- 20.1 The present paragraph shall apply to the provision of Dealing in Securities.
- 20.2 Custody Assets shall be held until instructed by the Client to sell, in custody on behalf of the Client and will be registered or otherwise recorded in the name of the Company and/or Third Party's nominee(s), or nominee(s) of any Affiliate, or by a recognized or designated investment exchange or a sub-custodian (each, a "Nominee"). The Company will exercise reasonable skill and care in the selection, appointment and periodic review of such Nominees but will not be liable for their acts, omissions, insolvency or dissolution. Any discrepancy in terms of client assets and any resulting shortfall will be dealt with in accordance with the Applicable Regulations on Client Assets.
- 20.3 The Company may hold assets for any or all its clients with a sub-custodian in a single/pooled account and/or in the same name as those of other clients. This means that assets will not necessarily be immediately identifiable by way of separate certificates. If the Company or its Third-Party nominee were to become insolvent there may be delays in identifying individual assets, and possibly an increased risk of loss if there should be a shortfall because additional time will be needed to identify the assets held for specific clients. In addition, in the event of an unreconciled shortfall caused by the default of a custodian, the Client may share proportionately in that shortfall.
- 20.4 The Client authorizes the Company and any Nominee to hold or transfer Financial Instruments (or entitlements to them) to a securities depository, clearing or settlement system. Financial Instruments that cannot be settled through a central securities depository system may be held overseas by a third party (including custodian, sub-custodian, registrar, bank, intermediate broker, or settlement agent) in the name of the Company or a Third-Party nominee. Details of the name that an Instrument is registered in are available on request.
- 20.5 Notwithstanding the above, Custody Assets shall be readily identifiable as such and as separate from those of the Company and the Company will keep detailed books and records in regard to the Custody Assets holding on behalf of the Client. The Company shall conduct, on a regular basis, reconciliations between its internal accounts and records and those of any Third Parties by whom the Custody Assets are held.
- 20.6 Notwithstanding the foregoing, the Client agrees that any and all Custody Assets held by or deposited with the Company, any Nominee or their respective sub-custodians, nominees or agents are at the Client's sole risk. Company's duty in respect of the custody of Custody Assets shall be limited to acting as bare trustee and to exercise good faith in respect of any action or inaction in relation to such custody. 22. Security Interests Liens or rights of Set off

22.1 The Company shall have a general lien on all funds and assets held by the Company or its Associates or its nominees on the Client's behalf until the satisfaction of his obligations.

22.2.1 To the extent permitted by Applicable Regulations, the Client acknowledges, agrees and consents that the Company or the Third-Party custodian may grant a security interest or lien over Custody Assets in favor of a Third Party, sub-custodian or depositary in respect of:

- properly incurred charges and liabilities arising from the provision of custody and/or Dealing in Securities services by the Company or such Third Party, sub-custodian or depositary to one or more of the Company's client's; or
- a lien arising from the operating terms of a securities depositary, securities settlement system or central counterparty in whose account Securities are recorded or held.

22.2.2 Such Security interest or lien SFT shall become immediately enforceable in case of an event of default or insolvency concerning the Company or any Third Party, sub-custodian or depositary. In such case, the Third Party, sub-custodian or depositary may at its sole and absolute discretion, take possession of all or part of the Custody Assets subject to Security Interest, lien or SFT and may in its sole and absolute discretion, sell collect, convert into money and/or exercise any rights pertaining to all or part of such Custody Assets in such manner and on such terms as it thinks fit.

22.2.3 Where security interests, liens or rights of set-off are granted by the Company over

Custody Assets, or where the Company has been informed that they are granted, these shall be recorded in the Company's own books and records to make the ownership status of the Custody Assets clear, such as in the event of an insolvency or other event of default.

22.3 Margin Lending

- 22.3.1 When the Client is Dealing in Securities, the Client may pay for the Securities in full or may borrow part of the market value from the Company based on the Securities already purchased i.e. the Securities purchased are the Company's collateral for the loan. If the Securities in a Trading Account decline in value, so does the value of the collateral supporting the loan, and, as a result, the Company can take action, such as issue a margin call and/or sell Securities or other assets in any of the Trading Accounts held with the Company, in order to maintain the required Equity in the Trading Account.
- 22.3.2 The Company can force the sale of Securities or other assets in the Client Account. If the equity in a Trading Account falls below Company's Lending Maintenance Margin Requirements the Company can sell the Securities or other assets in any of the Trading Accounts held at the Company to cover the margin deficiency. The Client further acknowledges and agrees that they will be responsible for any short fall in the account after such a sale.
- 22.3.3 The Company can sell your Securities or other assets without contacting you. We may attempt to notify our Clients of margin calls, but we are not required to do so. However, even if the Company has contacted you and provided a specific date by which you can meet a margin call, the Company can still take necessary steps to protect its financial interests, including immediately selling the Securities without notice to you.
- 22.3.4 The Client is not entitled to choose which Securities or other assets in the Client Account are liquidated or sold to meet a margin call. Because the securities are collateral for the margin loan, the Company has the right to decide which Security to sell.
- 22.3.5 The Company can increase its Lending Maintenance Margin Requirements at any time and is not required to provide advance written notice. These changes in firm policy often take effect immediately and may result in the issuance of a maintenance margin call. Failure to satisfy the call may cause the Company to liquidate or sell Securities in the Client's Trading Account(s).
- 22.3.6 The Client agrees to pay ON DEMAND any balance owing with respect to any of their Trading Accounts, including interest and commissions and any costs of collection (including attorneys' fees, if incurred) in relation to such loan. The Client understands that the Company may demand full payment of the balance due in the Trading Accounts plus any interest charges accrued there on, at Company's sole option, at any time without cause. The Client understands that all loans made are not for any specific term or duration but are due and payable at Company's sole discretion upon a demand for payment made to the Client. The Client agrees that the Company shall have a general lien on all funds and assets held by the Company and set off any balances due deriving from such loans, immediately and without notice.

- 22.3.7 It is important that the Client fully understands the risks involved in using margin, whether trading Securities on margin or using your margin account equity for other purposes. You can lose more funds than you deposit. A decline in the value of securities purchased/held in your margin account may require you to provide additional funds to the Company to avoid the forced sale of those Securities or other Securities or assets in your Trading Account(s).

23. Security Loans

- 23.1 The present paragraph applies to the provision of Dealing in Securities.
- 23.2 The Client agrees, consents and authorizes the Company to enter into arrangements for securities financing transactions (hereinafter "**SFTs**") in respect of financial instruments (or any other Custody Assets) held by the Company on Client's behalf or to otherwise use such financial instruments for Company's own account or the account of another client. The Company may enter into such terms with the counterparties to the SFTs (which may include Company's other clients, internal desks, affiliates or our branches) as the Company in its sole discretion may decide. For the avoidance of doubt, such SFTs include, without limitation, repurchase transactions, securities or commodities lending transactions, securities or commodities borrowing transactions, buy-sell back transactions, sell-buy back transactions, margin lending transactions, types of transaction that are similar to any foregoing transaction that are currently, or in the future become, recurrently entered into in the financial markets or any combination of the foregoing transactions. In case of an SFT neither the Company nor the Third Party shall have any obligation to retain under their possession and control a similar amount of such Securities. In connection with such STF, the Company or a Third Party may receive and retain certain benefits (including stock lending fees and interest on posted collateral) to which the Client shall not be entitled. Such loans may limit, in whole or in part, Client's ability to exercise any voting rights relating to the securities lent. Any securities lent may be lent, in turn, by the borrower.
